But Col. Greene's most sensational move resterday was, his announcement that warrant of arrest had been issued for Glover. Mr. Glover was in this city yesterday, but the warrant, it was stated, was issued in Mexico. The directors of the Greene Gold company adopted a resolution thanking the Colonel for what they termed his vigorous defense of the company, and also appointed a committee

company, and also appointed a committee to take steps toward the prosecution of the persons who they say have maliciously slandered the properties.

Col. Greene told the directors that while he was in Mexico a careful examination had been made of the properties of the Greene Gold company. For this purpose he said that he had secured six well known mining engineers, and in addition had had the investigation made in the presence of the United States Consul and the local Mexican Government officials. As a result of the investigation, it appeared that \$200,000 in gold dust had been secured in the first and second clean-ups. Col. Greene said that the regular dividend of 20 cents a share would be paid on the Greene Gold stock, although he understood that an attempt was to be made to enjoin the payment of the next dividend. He said that he would welcome any legitimate attempt to bring about an investigation of the corrector. mate attempt to bring about an investiga-tion of the company. Mr. Tustin stated yesterday that he had two more reports of yesterday that he had two more reports of sperts backing up that of Glover.

The shares of both the Greene Gold and Greene Copper companies declined sharply enthe curb yesterday. Greene Gold dropped from 5½ to 4½, and Greene Copper declined 1½ points from 23½. Transactions in both stocks were heavy.

NEW JAP LOAN PLACED. Japan Accepts the Offer of London, Berlin and New York Bankers.

nouncement was made yesterday that the Japanese Government had decided to rept the offer made for its new issue of bonds by bankers in London, Berlin and this city. One-third of the total issue of \$150,000,000 will be placed in this country, and the same amount in England and Germany. the same amount in England and Germany. The feature of the new bond issue is the public offering in Berlin. When the last issue was offered for sale the German bankers unsuccessfully tried to obtain part of the loan. The price of the new bonds has not yet been announced, but full details will be made public within a few days. the loan is secured, as was the previous one, by the tobacco monopoly, and the bond will hear 4½ per cent. interest. The syndicate in this city will be headed, as in the case of the previous issues, by Kuhn, Loeb

87,500,000 Holding Company.

GOSSIP OF WALL STREET. An effort yesterday to distribute some of the

stocks accumulated in June suddenly changed the entire atmosphere of the market, and a general selling movement, which spread to most of the leading houses late in the after-noon, carried prices down an average of two points from the top figures of the morning. While some of the Western houses were bidding up particular stocks openly in the morning of this selling grew more pronounced after some of the stocks which had had sharp advances since last week sold off very rapidly. was a coincidence, which has been noted soon after the appearance of a bullish interview from one of the prominent Western opera-tors. After reviewing the agricultural and commercial situation, he said that he could "see but one side to the market" and that stocks must sell higher. His house sold stocks in volume after the appearance of the interview. It cannot be said of this operator, however, that he is an eleventh hour bull, for he announced himself as a bull several weeks ago when prices were very much lower, and he and his following were large buyers of stocks before this advance began. They are evidently converting some of their paper profits into cash. A year ago, before the big advance in stocks began, this Western operator pre-dicted very much higher prices for stocks, and he had the satisfaction of seeing his predictions made good. On several occasions during the last few months, however, his have been coincident with the culmination of

Yesterday was the first million share day

Houses which sold long stock on the morn ing advance were surprised by the market's capacity for absorbing stocks. A house which had an order to sell 5,000 shares of long stock, bought a fortnight ago, sold it in two blocks at one price, and the stock advanced a full point within an hour. Later in the day the stock declined more than a point below the price at which the order had been executed.

Some big blocks of Union Pacific were sold yesterday, before the market turned, for people fairly close to the dominant interests in the property. These lines were acquired in May and June below and above 120. The people who sold Union Pacific around 130 yesterday are conservatively bullish on the market, and think that this stock will sell higher before the culmination of this movement, but they did not like the way the stock was being bulled. On the advance to 130%, at which price there was a heavy volume of trading, the story was spread around the Street that the company would declare an extra dividend in a few weeks. This rumor was a revival from everal weeks ago, when there were stories of an extra dividend ranging all the way from 2 to 15 per cent. Some people seem to think that, if the Union Pacific dividend is not increased to a 5 per cent. basis this summer, there will be an extra dividend conditions continue favorable during the rest of the year, the winter dividend will be at the 5 per cent, rate. Interests close to the management of the property expect that the summer dividend will be 21/2 per cent., with no extra dividend.

Tennessee Coal and Iron, which sold at 84% on Monday, and at 92 yesterday, is being bulled on the report that the company, has a monopoly of the manufacture of steel rails by a new process, alleged to be superior to the Bessemer process. The assertion is made that the new process produces a rail which is much harder than the present standard rail, and will take the place of Bessemer which has more than once amazed Wall Street by its sensational fluctuations, was advanced rapidly in the morning trading nearly five points above its Monday closing price, but in the afternoon reaction it lost a large part

Profit taking of much the same character as that in the stock market brought on a heavy decline in wheat prices, the September option in Chicago, on which the bull campaign is centered, losing nearly four cents. Some of the heaviest sellers of wheat were which \$2,500,000 is to be 8 per cent. cumulative preferred and \$5,000,000 common stock. The directors are: Samuel H. Dodd of East Orange, N. J.; J. F. Giles, Edwin Elliyer and Frederick Kraemer of Brooklim: D. G. Kennedy, W. A. Montrose and L. R. Conklin of New York; R. A. Fielding of Glen Ridge, N. J., and Otto Fliedner of Jersey City. The principal office is to be in Hempstead. Nassau county. days, in both the winter and spring wheat sections, the Minneapolis market opened at an advance of three cents over Saturday's close. Chicago's response to this remarksales in Chicago of September wheat ranging from 90 to 91 cents, as compared with Saturday's closing price of 89% cents. The price touched 91% on short covering, and then large operators began unloading big lines. Prices tumbled rapidly. No effort was made by the bull crowd to support the market. By the time the selling movement had spent its force four cents had been lost by the September option. Many of the eleventh hour bulls were shaken out. The Northwestern crowd, which has been bulling wheat the last two months, and which bought wheat ten cents below yesterday's closing price, seemed to be undisturbed by the sharp reaction. The market, it said, was carrying too many weak pyramids.

One of the operators who have profited most by the advance in cotton is a well known Western railroad man.

"I don't get the feeling of this market," says a member of one of the leading wire houses.

"I want to get our customers into stocks so that they can make some money, but I haven't the courage to do it. I didn't advise them to buy stocks when they were five or is suffering for cultivation. ten points lower, and so I can't very well do

CONDITION OF THE CROPS.

Indications of Pine Crops of Corn, Wheat Structural Trade Flourishing-Western Mills and Oats-Cotton Improved. WASHINGTON, July 5 .- The weekly summary of crop conditions issued by the

Weather Bureau to-day says: The northern districts of the country experienced temperatures too low for rapid Frowth, but in the Southern States the tem-peratures were highly favorable. Excessively heavy rains from the central and west portion of the central valleys, while relieving drought in Missouri, were injurious in places and interfered extensively with cultivation. The conditions on the Atlantic and Pacific coasts were generally favorable. Rain is much needed in the southern plateau region. Corn has made excellent growth over the greater part of the corn belt, and except in the upper Missouri and lower Ohio valleys, where rains have retarded cultivation, the crop is clean and well advanced. Considerable has been laid by in Illinois, Missouri and

Kansas. Late corn in the Southern States

lower Missouri and central Mississippi varietys.

While cotton is generally improved and has made good growth throughout the cotton belt, the crop is much in need of sunshine and cultivation in the central and western districts, in portions of which too rank growth is reported. Except in the central districts, cotton is generally fruiting well. Boil weevils and other pests are active in Texas and Louisiana.

Tobacco is sinfering from drought in central North Carolina and from lack of cultivation in Kentucky: elsewhere this crop is doing well.

tion in kentucky; elsewhere this crop is doing well.

Reports generally indicate an apple crop much below average in all sections.

Considerable hay was damaged by rains in Iowa, Nebraska and Tennessee. In the upper Ohio Valley and northern portion of the Middle Atlantic States and New England an average crop of hay is being secured under favorable conditions.

IRON TRADE HOPEFUL.

Send Orders East. The Iron Age says to-day:

The feeling in the iron trade generally is The feeling in the iron trade generally is distinctly hopeful and yet there is little that is tangible to justify increased optimism. Those branches which saved the situation after the check of the late spring are still the backbone of the good times. These are the structural and the plate trades, which are flourishing through the railroad buying of cars and engines and the heavy requirements for buildings, bridges and ships for the Lakes. As an indication of the volume of business being done, the fact may be mentioned that the American Bridge Company alone booked orders for bridges, buildings and structures aggregating 71,000 tons during June. In New York contracts for buildings involving 15,000 tons of structural material were placed during the week. Chicago did a good business and has some large work in sight.

In the plate trade, mills in the central West have been forced though sheer inability to make deliveries to transfer work to Eastern mills. Some good rail orders have been placed lately, including 15,000 tons with one mill in the central West and 30,000 tons with one mill in the central West and 30,000 tons with one mill in the central West and 30,000 tons with one mill in the central West and 30,000 tons with one mill in the central West and 30,000 tons with one has been the adjustment between the American Sheet and Tin Plate Company and the Amalgamated association of both the sheet and the tin plate scales. The men receded completely from their demands for an advance in wages and accepted substantially the existing scales.

FINANCIAL NOTES.

Lawrence M. Starbuck, a broker on the Consolidated Exchange, suspended yesterday. It was said at the Exchange that Mr. Starbuck's failure was probably due to his absence from town over the holiday. He absence from town over the holiday. He was short several thousand bushels of wheat, but it was thought that he could make the shortage good when he returned. shortage good when he returned.

Lazard Frères engaged \$1,000,000 in gold yesterday for shipment to Paris.

The curb brokers will draw lots to-day for positions on the curb. Since Commissioner McAdoo has roped in the traders they have decided to hang signs on the ropes signifying the location of the various stocks traded in, and it was decided to draw lots for these places.

A committee consisting of John H. Davis, Rudolph Kleybolte, George M. Pynchon and Jefferson M. Levy are asking for deposits of Green Bay and Western Railroad "B" debentures with the United States Trust Company, for the purpose of taking steps to secure the payment of interest on the debentures.

Railway 5s.

Among the bonds offered for sale by William A. Read & Co. are the City of Cambridge 3½s and bonds of the Atlantic Coast Line, Cleveland Terminal and Valley Railroad and the Interborough Company.

Live Stock Market.

Live Stock Market.

Receipts of beeves were 1.607 head, including 8 cars for export alive, 40 for slaugnterers and 80 for the market. Steers were not brisk, but full steady, and good dry fed steers irm; buils steady; cows steady for common grades and a shade higher for good cows. The yards were cleared. Good to prime steers sold at \$5.1025.80 per 100 lbs., including distiller? fed steers at \$5.302\$5.00 stags at \$3.302\$1. buils at \$2.702\$3.75; cows at \$1.752\$4.15. tailends at \$1.502\$1.65. Dressed beef in fair demand at 726c. per lb. for common to choice native sides; light Texas beef steady at \$5\gamma_0\$7. Liverpool and London cables quoted live cattle firm at 112.12c. per lb.; tops at London, 12\gc. per lb. dressed weight; sheep, firm. Exports, 188 beeves. So sheep and 4.000 quarters of beef.

Receipts of calves were 3.915 head, including 206 for slaughterers and 8.619 for the market, and, with the few stale calves, there were 3.612 on sale. Veals were active and firm and generally 15\cd.25c. higher: buttermilks, 25\cd.25c. higher. The pens were cleared. Common to choice veals sold at \$5.502\$7.75 per 100 lbs.; culls at \$4.502\$5; buttermilks at \$3.871\cd.25c. \$4.75; a car of Western calves at \$2.75. Dressed calves firm at \$\frac{3}{2}\cd.25c. higher. The pens were cleared. Common to choice veals sold at \$2.75c. Dressed calves firm at \$\frac{3}{2}\cd.75c. per 1b. for city dressed veals and 6\frac{3}{2}\cd.75c. per 1b. for city dressed veals and \$6.50c. for country dressed. Receipts of sheep and lambs were 10.873 head, including 12 cars for slaughterers and \$3.5 for the market. Sheep were wanted and prices firm; lambs opened rather slow but full steady, and with light receipts the market held up, closing firm on reported light arrivals to-morrow. The pens were cleared. Common to choice sheep sold at \$5.50\cd.55c. per 100 lbs.; culls at \$2.50\cd.\$50
